NEWSPAPERARCHIVE®___

EDWIN O. BURLEICH.

bill person the Hopes Salverby by a direct party vote—year, 125; maye, 10. The bill new great to the Extendent.

been elected Socretary of the Wester Ca-lenships Expecition. The sologies is in admirable one. No man in the country is citer qualified for the position than Mr.

The Senate passed the Frye Shipping bills Saturday. The vote on the first bill stood year 29, pays 18, and on the postal subsidy bill yess 28, nava 16. Senator Payne of Ohio, was the only Democrat to vote for the bills.

The license advocates would have the people believe that uniter a license sys-tem there would be no violation of the law. We saw it stated but a short time since in a paper that favors the license system that in the city of Philadelphia where a high license law prevails there are aix thousand "apeak easise" or un located rum shops.

The Ohlo Democrate have nominated ex-Licotenant-Governor Warwick as a candidate to run against Congressmen McKin-ley: The resolutions of the convention in favor of "liberal dealings with the veter-ana" read strangely in view of the Damocratic record. With President Claveland's vetors and the constant denunciation of pention legislation in the Lemocratic or-gans confronting him Mr. Warwick stands upon a shaky platform.

teter, a Republican newspaper, giving what the Commental calls the startling are posure of the mapper in which greedy officials use the prohibition law to line their own pockets." The fault, if the charge is true, appears to be with the of-ficials rather than the law. What the law Larrabee, as follows:

The number of convicts has been reduced from 750 in 1886 to 604 in 1889. It is the testimony of the ingres of our courts that criminal business has been reduced from 50 to 75 per cent., and that the oriminal expenses have diminished in like proportion.

These are pregnent facts and show the improved condition of affairs under the obibitory law.

*Instead of Mr. Clark withdrawing to "almplify the issue" it is Governor Bur-leigh who should take himself out of the field, and leave the issue to be fought out fairly and squarely between the opponents of prohibition and its real friends and sup-porters. Then we shall know last where the majority of the people estant on this question.—Commercial. The issue will be fought out and Gov-

ernor Burleigh, himself a practical prohibitionist and long-masse man will be re-closed by a majelity, that will show the utiler absurdity of the claim that the justiment of Mains on the quantity of prehibition has undergone a change. If Mr., Clark runs, as the Quinterple of amounty duters, ho may reside a thomself or two years—width will count for Holms, but nother Mr. Clark, or Mr. Thompson, or both reacher.

The Louisiana lettery than enkylentered its first Infallity: State Schooler Spill Col on the 5th lest., and, as by a paraller hap-pening, there was exactly the required two-chirds and no mire of both branches of the legislature in favor of the lettery bill, the Speaks is madels to pass the bill over the governor's vote. That bely has Summer B ankets
that the governor has an Gray, for Cottage. Sekside
so pour to vote the bill, and shat, as it. ters, thouly remains that the act to premalgared. The governor will compute this
rior of the cours, and the fight will be
tenhalored to the courts. The despitable
this meaning indicate that the purple are

JOSEPH F. SMOV. gaining their eyes open to the fact that the legislature 'bee actiff in a shapeful attenue, but whether this change in sent-ment to storne enough to said these high

The Department's papers quite generally delight in styling the Rotinest Election bill on the "three and found bill." The util an the "frees and frank hill." The
How York World is especially given to
this afficerative decaytion, whereupon the
How Yark Press asks these pertinent
quantities:

Does the World think it is the spirit of

Does the World think it is the spirit of the Constitution (that one camb chall have double) or triple the representation in Congrous, and not allowed to vote as an election of the representative indeas in Congrous, and not allowed to vote as an election of the representative indeas in Telefold 27 1000.

veter one way?

One the World think is in the intext of the Continuous line that decimant in many advisory and recommendatory in character; that is in without binding force, and is not intended to be unforced?

These institute are an applicable to many other Descriptic papers as to the Forts, and it beneatly approved torse no ound for appointing to the Radouble college law, from any Damermile paper.

A Samplectory Issue. -

This means that the Republican desperation, which has swept lawy in the Rouse
all the satisfacted which constitution and
precedents have thrown around the miscrity, has stined also upon she Senate, and
that the force bill is to be put through by
the strangling of debute. It is perhaps
well that it should be so. Let nothing
stay the should be so. Let nothing
stay the should be so. Let nothing
that the house of the revelutionists in
Congress. The people will deal with them
at the polis.—Conserval.

The above conventual.

The above comment upon the peace despaich published in This Wans, to the effact that a determittee of Constore had amount desired, either in jugs or bettels at vary been appointed to consider the question of less rates. Changing the rates to contine the question of the majority to control legislative, is decided? well.

The manner in which our continuous properties there are recommended the majority copies the suffer work expression when the majority the suffer work expression when the majority the suffer work expression was the suffer work to the suffer was to the suffer work to the suffer was to the suffer work to the suffer was to

know their care would be thrown out of court! What the House did was to prevent the Danscents from energing out their groupstates of practical minerity rule by boing pro-out for minchlef and about for business, Water Takers.

And the same of th result lies been a business feeter. Ser the Esses that is to-dry secretary the upquall result lies been a besieup fesert for the general field and enthopiacio approviding the upparallel and enthopiacio approvid of the pripie. The Democratic Scotters next applied by beent that they will take applied time to prevent the percent of the Election tell. His. Hiergen, Se'-lentmon, declares that he can take highestely on this addicts smitting that abstract waste hips their sind-tree bettern that any attempt to abridge the schools waste their time to be been the common temptatic that the property down some lengths of every finitelligent propagates understands it. The Republicant biller a respective the lengths on the propagation of the property in the Senate, they are responsible for the lengthsteen wasterd, were To the office of the organization of the organ L. Crimit, midd Mirther, S. "Process Seem Into results » P. M. Patrodo invited.

d." You cannot take it: Oh, L fe tait id beso. But tell me why wild?"

Them. I can report all mome the said I tampood

The ever rising hope in Don Walters breast prompted him to look again to see if the Yellow Snalrs had not come hack as one of the vagaries of the con-vulsion; but howhere was any glint of its dull golden insist to be seen. It was not for some little time he realised that another haunting dream of his had se-

not for some little time he realised that another haunting dream of his had somather haunting dream of his had somather haunting dream of his had somather had no longer to be guarded against. There lay the wreck of his timper particulaes and he conduit; there lay the fink rock on which the Yellow Snake had been wont to sun itself, free and open now to wheaver would approach. Below it was a covernous depression filled with irrugular fragments resembling those usually found in the vacant bed of a stream; some blackward with alime, others partity colored with chemical increatations. But over the surface could be made or towards introduct the stream of the cortain simulations and vague anguestions of ous lines and vague suggestions of shapes that caused Don Walter's heart to stand still for a moment, then to beat with a force that made him diany. would be hard to beat this record.

It must have been a pretty good temperhace lecture for a Waterville set, when he
awoke in the lockup Sonday morning, can
found a corpuse lying by his side. It was
all that was laft of Kate Hodges, who had
bombitted suicide during the night.

Waterville is proud of saveral things,
among them a lady's reducate, in which
the little fide e, the big fidels and the horn
are all manipulated harmoniously by
maidens young and tair.

with a force that made him diszy.

He displayed down to the spot. It hardly needed his hamner and adds to verify what he found there. Everything pointed to the belief that he had discovered a large part, at least, of the ungets formed by all the past plunging over of the golden stream. Let the Yellow Bankle go now without a thought, for here was its progeny in limitless supply. Never, even at the time of the first discovery, had Welter bean so overcome. The possibility that he imight seeme riches for himself, even after his handrable subtition was attained, now greated. able subtition was attained, now greeted him. Fulgurations seemed to dark before this eyes. He fall upon his shoes in a moodled the chosens plety.

If I have been aften rebellions under the scourging hand pheaven." he prayed,

ways.

In two days he was able to take out smough from this new source to complete the coveted amount, and not a lit-

ROB NSON, where wright & clark's block

Cushing is started over the fate of two young men who have not been seen since the Fourth of July. They attended the dance in the two nail at Friendship, on the night of the Fourth; and it is not known but that they pertined in the lumning of this full which occurred saily the next morning. A gestleman standing near as the time remarked upon the ct or of the flatmer which he though might have been due to burning fieth.

A Yearkee skipner is analyzed to help DR. McQI_L'S CRANCE BLOSSOM A corn for all female diseases, beluding ovarran sumors, cancers and polypose. O. B. has cured non-piec. F. in. B., Alcoura, Me, Mrs. T. of feath Boyer, cape: B is splended for failing; have been (confided for 16 years and have been cared by O. B. Mrs. B. or Bath writes). The host biling I work awe for ladies; it does wonders. A trial package seas free on repair of postage stems. Address, Mise M. E. BOYNTON, Agent, Box 16ts, Bengor, Me.

> PENSIONS. The state accounty blacks and from sight of the state of

of the finites which he though might he vabeen due to burning desh.

A Yankee shipper is supposed to be
equal to most anything, and a recent experisons of Cape. A.-H. Howard, of Rockiand, as reported by the Bockland Free
Press helps to confirm this ples. Bellg
unable to obtain a crew in Rockland, Cape.
Howard resolved to alone take his schooner to a heighboring port, having obtained
the assistance of two men to help him put
abourd necessary provisions. When ready
for salling he sept that men ashore and
started the vastel. Watching for a moment the best he had sent shore-ward.
Cape. Howard new it caption and the two
men provingence has the water. He at I
see course of the hadeson, righted the
trace imped from the water and two to
the course of the hadeson. He then even
there shifted the two it was the report
then child to two from the water water
made to the two the branch report
then child to two from the water water
made to the two the branch water
made to the two the sale report
then child to two from the track water
made to make some trackway before a
sale branched his vector which was beginning to make some trackway before a CHEM MAN Morway is still tecoping. The news here benefit and fitted up a letterny. Happy the pilings without one, but it is a bern sign of growth and Breimen.

Mrs. Allos Promess Talmer, long the president of Wellnier, College, is to deliver the graduating soldens at the frest Chairmann Ascembly in How York tale year. These who stited the Ascembly of Physicage which eventuents July 28, will have the pleasies of Basming to this digiting since help. The outlook now? In der a large estimations and a growd meeting. The Chantanges graduates of 1800 are expected to making a strong the Physicage Assembly a strong the property of the property as-
